

QUALITY POLICY

The Quality Policy of AusDiagnostics Group, (inclusive of AusDiagnostics Pty Ltd, AusDiagnostics NZ Ltd, and R-Biopharm Clinical USA Inc) and R-Biopharm Australia Pty Ltd (together referred to herein as the entities), is dedicated to provide best practice guidelines to achieve compliance to quality standards and ensure continuous improvement in all aspects of its business. The Policy focuses on quality, innovation, productivity, and service with the aim to meet or exceed its customers' requirements and expectations.

AusDiagnostics Group is committed to complying with the requirements of ISO 13485:2016, inclusive of all other applicable regulations and legislation, and has provided a framework to establish and review its quality objectives.

R-Biopharm Australia will operate all systems to meet the requirements of ISO 9001.

Following the integration of R-Biopharm Australia and the AusDiagnostics Group, the entities have shared objectives, and the review periods are maintained under one quality system.

The Quality Manual and the documented supporting procedures (as applicable) are mandatory throughout the entities. Together, Top Management and managers of the entities are responsible to ensure that all employees are aware of the importance of achieving the quality objectives, improving customer satisfaction, and maintaining quality and regulatory compliance.

Top Management are committed to complying with the principles and practices of the Quality Management System to achieve the business and quality objectives.

Nicole McKeown
Chief Executive Officer
